

LEVIES FOR 2008 Information for Parents of Year 9 - 12 Students

Dear Parents/Guardians

The attached sheet sets out the payments set by Noble Park Secondary College Council for the 2008 school year.

Subject Contributions

The Subject Contributions charge of \$180.00, is requested to supplement government funds and to enable us to provide the high quality programs that you rightfully expect for your child.

This charge contributes to classroom running costs such as class texts and materials, library books, as well as more general College items such as College Newsletters, parent notices, first aid supplies and student welfare programs.

This charge does not include costs of excursions, camps and tours, or any booklist items.

Student Consumables

IT Consumables

Software Site Licences, printer cartridges, paper, maintenance of printers and photocopiers are a considerable expense to the College.

Student Diary

It is College policy that all students purchase the Student Diary. This planner is used to teach students time management skills, including planning their homework and being organised to complete unit requirements by due dates. It also provides a means of communication between teachers and parents.

ID Cards

It is College policy that all students have an Identification Card. We require that students purchase an ID card at Year 7, Year 9 and Year 11 at a current cost of \$5.00. Students require an ID card for various activities within the College. If an ID card is lost or damaged it must be replaced. The cost for replacement is also \$5.00.

Electives for Year 9, 10, 11 & 12

Some Technology electives use extensive and expensive class materials, which incur an extra cost. Food Technology is one such subject where students will be required to pay a charge to offset the cost of ingredients. Students undertaking Timber, Photography, Electronics and Outdoor Education will also be required to pay additional material costs.

Sport Excursions

As part of the Health and PE Key Learning area, and the Government's compulsory sports requirements, all students are required to participate in sport activities. These include the swimming and athletics sports days and other interschool sports days throughout the year.

Optional Contributions

School Magazine

This annual magazine is a special collection of the highlights of the year and becomes a valued keepsake for students and their parents.

We have an instalment plan to assist parents with paying these levies. Instalments can be made in December 2006, February 2007 and May 2007. Payments may be made by cash, cheque or credit card. Please use the attached sheet.

Thank you for your support. It enables the College Council to ensure that students continue to receive the best possible educational opportunities at Noble Park Secondary College.
